

HMKSB-18

Type: KSB High Pressure Pipe Pump Seal
Replacement: Suit KSB Pumps
Temperature: $\leq 40^{\circ}\text{C}$
Pressure: $\leq 70\text{Bar}$
Speed: $\leq 1450\text{r/min}$
Material: Q1, Q2, U2, T, V, M1, F, G, M

* Product description

HMKSB kesby high pressure pipeline pump V/ LHS/ VS/ VC mechanical seals, vertical installation with annular section design of multi-stage high pressure centrifugal pump, equipped with the same nominal diameter, position relative design nozzle and nozzle (pipe design), direct connection, design in accordance with ATEX standards.

* Apply to the host

HMKSB Company

* Product features

It is used in sprinkling irrigation, irrigation, washing, water treatment, fire fighting and supercharging systems.

* Applicable industries :

High pressure pump
