

HMSZ-16

Type : Sulzer,KSB Pump Seal
Replacement: Suit KSB and Sulzer Pumps
Temperature: -20 to +160°C
Pressure : ≤ 1.60 Mpa
Speed: ≤ 10 r/min
Material : B,Q2,U2,P,E,N,V,F,G,Alfa

* Product description:

This series of mechanical seals are the most widely used desulfurization mechanical seals in the thermal power industry. And the product before leaving the factory on the relevant inspection, testing, pressure testing work, to ensure that the mechanical seal arrived at the user site can play its due effectiveness.

* Apply to the host

ZAP701 Sulzer

ZAP801 Sulzer

HMKSB KWPK600-825

HMKSB KWPK600-815

HMKSB KWPK600-663

HMKSB KWPK600-873

* Application:

Thermal power generation.

* Working position:

Circulating pump desulfurization pump.
