

HMS-15

Type: Slurry Pump Seal
 Replacement: Alkali Pump Seals
 Temperature: $\leq 150^{\circ}\text{C}$
 Pressure: $\leq 1.0\text{Mpa}$
 Speed: $\leq 1500\text{r/min}$
 Material: Q1,Q2,U2,T,V,M1,F,G,M

*Product description:

Double cartridge mechanical seal for alkali pump, chemical pump application.

*Apply to the host

Shijiazhuang industrial pump

*Product features

Single cartridge seal
 Pusher
 Single springs seal
 Independent of direction of rotation
 Admissible axial movement ± 2
 Diameter: 80mm

*Application industry:

Acid, alkali, fine chemical, chemical fiber.

* Working pump position:

Phosphoric acid pump, Acid pump, Hydrochloric pump, Alkali pump, Chemical standard pumps, Chemical pumps.
