

## HMS-38

Type: Slurry Pump Seal  
Replacement: Axial Flow Pump Seals  
Temperature:  $\leq 150^{\circ}\text{C}$   
Pressure:  $\leq 1\text{Mpa}$   
Speed:  $\leq 1600\text{rpm}$   
Material : Q1,Q2,U2,T,V,M1,F,G,M

### \*Product description:

Double cartridge mechanical seals axial flow pump for ZZP series of Zigong Pump application.

### \*Apply to the host

Zigong water pump co., LTD

### \*Product features

Double cartridge seal  
Pusher  
Single springs seal  
Independent of direction of rotation  
Admissible axial movement  $\pm 2$   
Diameter: 45 mm

### \* Application industry:

Pharmaceutical pulp and paper industry, Fertilizer  
Salt making Caustic soda industry.

### \*Working pump position:

Circulating pump, Process pump, Chemical process  
pump, Corrosive medium pump, Pipeline pump.
