

## HMS-40

Type: Slurry Pump Seal  
 Replacement: Sludge Pump Seal  
 Temperature:  $\leq 150^{\circ}\text{C}$   
 Pressure :  $\leq 1.60\text{Mpa}$   
 Speed:  $\leq 10\text{r/mim}$   
 Material : Q1,Q2,U2,T,V,M1,F,G,M

### \*Product description:

Single cartridge mechanical seals for ZJA series gravel pumps of Hua Cheng Group application.

### \*Apply to the host

Hua Cheng Group Company

### \*Product features

Double cartridge seal  
 Pusher  
 Single springs seal  
 Independent of direction of rotation  
 Admissible axial movement  $\pm 2$   
 Diameter: 115 mm

### \* Application industry:

Metal lurgy Coal chemical industry, Salt making  
 Chemical industry, Alumina industry. P

### \*Working pump position:

Circulating pump, Slurry pump, Mud pump, Sludge  
 pump, Process pump, Mixer Dredging pump, Dredge  
 pump, Delivery pump, Transfer pump, Transmission  
 pump.
