

## HMS-45

Type: Slurry Pump Seal  
Replacement: IJ Process Pump Seals  
Temperature:  $\leq 150^{\circ}\text{C}$   
Pressure:  $\leq 0.80\text{Mpa}$   
Speed:  $\leq 1600\text{r/min}$   
Material: Q1,Q2,U2,T,V,M1,F,G,M

### \*Product description:

Single cartridge mechanical seals for IJ series chemical process pump of HP pump application.

### \*Apply to the host:

HP pump Co.,Ltd Company.

### \*Product features:

Single cartridge seal  
Pusher  
Single springs  
Independent of direction of rotation  
Admissible axial movement  $\pm 2$   
Diameter: 65 mm

### \*Application industry

Pulp and paper industry, Chemical industry, Alumina industry.

### \*Working pump position:

Slurry pump, Alkali pump,  
Pulp pump, Chemical pumps.
